INTERIOR ARCHITECT

---

## ABOUT ME

A passionate and fully trained Interior Architect. I'm always eager to challenge myself and broaden my knowledge.

My positive attitude, creativity and diligence keeps me adaptable on a wide range of projects. Technical expertise, including adobe suite and CAD, combined with a keen attention to detail provides a solid base for consistently producing successful outcomes and meeting budgetary targets. Whist I'm very amiable I have a deep determination to produce high quality work.

University of Burgos, Spain  
Jan 2015 - Apr 2015

### Architecture Grade degree

Incomplete  
University of Buenos Aires,  
Argentina  
Mar 2010 - Dec 2013

## EMPLOYMENT

### Cad Technician & Interior Architect

August 2022- December 2024  
Sigma Homes, Horsham, UK.

#### Responsibilities:

- Produced high quality technical drawings and plans for use across all project stages.
- Contributed to feasibility site plans for the Land team. Worked at different scales from whole sites to building layouts, conveyance, space design, and architectural details.
- Optimised interior spaces to meet the functional needs of homeowners.
- Reviewed and revised architectural plans to meet internal quality and building code compliance.
- Promptly completed assigned daily tasks by manager.
- Worked independently to provide options on space planning and material selections.
- Assisted with designs for sales brochures.
- Visited building sites to inspect progress and assess drawing impact.
- Volunteered for external training as the office First Aid and Fire Safety officer.

#### Achievements:

My responsibilities increased under my own initiative after demonstrating my ability. Providing better space planning and material selections resulted in regular consultation by department managers for my input.
